EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

This application is in condition for allowance except for the presence of claims 1-4, 23-27 directed to species non-elected without traverse. Accordingly, claims 1-4, 23-27 have been cancelled.

Please change the dependency of claim 20 from "19" to --13--.

The following is an examiner's statement of reasons for allowance:

Claims 13-15, 18, 20 are allowed because none of the prior art alone or in combination teaches or suggests the particular subset of the process steps in altering the composition of the SLAM by introducing carbon in a cyclic or a cage form to increase or decrease the etch rate such that the etch rate of the altered SLAM matches the etch rate of the dielectric material.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
